Statement of Wholesale Water Charges & Charges Scheme

2016/17

South Staffs Water Wholesale Charges Scheme

As a result of the changes made in the 2014 Water Act, non-household customers will be able to switch their supplier from April 2017. As part of the transitional period up to that date, incumbent water companies have to publish their wholesale charges.

This charges scheme sets out our wholesale charges to provide water to a retailer. All charges are effective from 1 April 2016 to 31 March 2017, unless otherwise stated.

These charges should be read in conjunction with our end user Charges Scheme, which as well as detailing customer tariffs, also sets out our charging policies. The tariffs set out in this document form the wholesale part of the total end user charge and as such exclude the retail costs of providing water to the end customer.
