

# The Water Cycle

Can you use the words below to complete these sentences and then draw your own diagram of the water cycle in the box below?

Once you have drawn and labelled your own diagram in the box below, use the sugar paper and pens provided to make a large version you can display in the classroom.

1. Water is \_\_\_\_\_ from the sea by the heat of the sun.
2. Air over the sea moves \_\_\_\_\_ over the land.
3. The water vapour in the air begins to \_\_\_\_\_ into clouds.
4. \_\_\_\_\_ falls to the ground.
5. Water runs into \_\_\_\_\_.
6. Finally, water finds its way back to the \_\_\_\_\_.

Condense, evaporated, rain & snow, rivers & streams, sea, water vapour
